Students who practice the religion of Islam celebrated one of their most holy festivities of the year, Ramadan, in the Student Center last Thursday.

FLOR DE LA SANTOS

The Muslim Student Association sponsored the event and brought two guests speakers who are currently enrolled at UC Irvine and they explained what Ramadan means. Robin Mahmud, economics major, opened

up with a prayer in Arabic and then translated it to English. Ramadan is the name of the ninth month of

the Islamic calendar. It's a month were Muslims fast for 29 days

and are encouraged to read the entire Qur'an. It is also believed the Qur'an was revealed. Mahmud described the word Islam as sub-

mission to God to surrender and to be obedi-

ent to him.

During the fasting period there is no consumption of food or liquid. If it's taken without being aware, then that is excusable.

There are many things that are prohibited, including food, smoking, foul language and sexual intercourse with their spouses.

Muslims get up before dawn to eat and perform their prayer. They usually bow down and pray five times a day. The fast is over for that day when the fourth prayer of the day is due.

Aslam Abbas, biochemistry major, said, When we pray, we go all the way to the floor, indicating that we are nothing without the Most High."

Abbas said Muslim is a universal religion and the one who started this religion was God and the ones who follow were Noah, Jesus, Abraham, Mohammed, and many others mentioned in the Qur'an.

He also explained that a lot of people think

that Mohammed was the founder of this religion but he wasn't he was just a faithful servant and the one who was the most respected and trustworthy in the city of Mecca.

When the Ramadan is over, they celebrate by giving presents to children and pay their fees and that money goes to a poor family.

For example, someone who lives in Orange county and has a family of four would be paying around \$50 to who ever is in need.

Syntia Hadiningtias, geology major and President of the MSA, said, "We had some problems and couldn't present the PowerPoint that we had, but the guest speakers did a wonderful job in explaining the Ramadan and it worked out great.

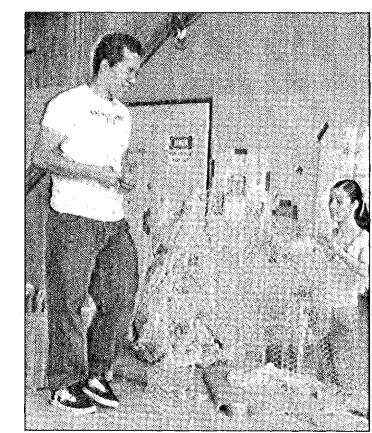

After the guest speaker, Hadiningtias had a fashion showof how Muslim women dress for different occasions.

Scholarship opportunities presented at Cabinet meeting

Shownadi Garner Staff Writer sgarner7@talonmarks.com

Holly Bogdanovich, director of Student Activities, announced that an outside corporation AXA Achievement has offered scholarships during Monday's ASCC Cabinet meeting.

Also, ASCC President Jason Macias announced plans to inform students about the Master Plan document.

AXA Achievement provides resources that help make college possible.

AXA is giving out 10 \$25,000 national winners and 42 \$10,000 state winners scholarships. ships."

To qualify, you mush demonstrate:

• Ambition and drive, Determination to set and reach goals,

Respect for self, family and community, The ability to succeed in college.

The deadline for applications for the AXA Achievement Scholarship is Dec. 15.

Bogdanovich said it's a great opportunity for someone to get scholarship money for classes.

For additional information students can visit their website: www.axa-achievement.com.

"Its connected through our school foundation," Bogdanovich

said. "It gives out great scholar-

ASCC president Jason Macias, announced the different commit-

tees throughout the school. He has attended a Campus Transformation Committee that

talked about the Master Plans for Cerritos College.

Macias informed others about the plans he have received.

> The Master Plan discusses changes that will take affect within the next seven or eight years. "I would like to schedule a meeting with as many student government members as possible to discuss the concerns and pres-

ent what's going on," Macias said. Students can then learn about

the Master Plan and give feed back.

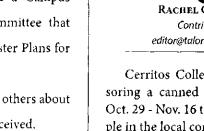

Canned food drive to begin RACHEL GRAHAM Contributor editor@talonmarks.com

Cerritos College will be sponsoring a canned food drive from Oct. 29 - Nov. 16 that will help people in the local community.

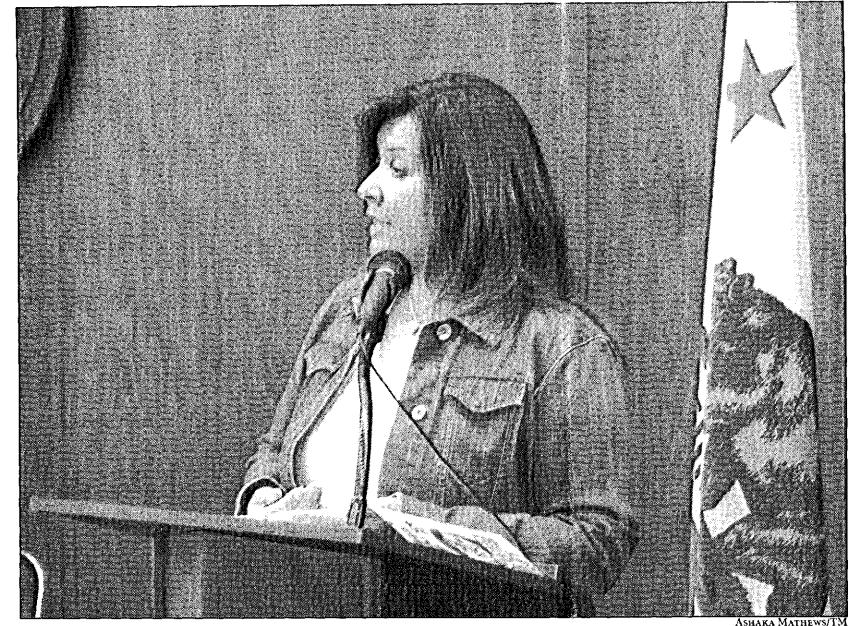

Nancy Bonilla, a staff member in Student Activities, said that cans will be collected so that they can be distributed to families in need during the Thanksgiving season.

Students at Cerritos College can partake in this drive by bringing can foods to school to be donated. For every 10 cans students bring, they will receive one Show Pride point.

All the cans will then be turned into Student Activities, where they will be counted and then given to the Norwalk Chamber, who will distribute them to the community.

(bodies) are so small."

week

TIM DICKERSON News Editor news@talonmarks.com

The Psychology Club hosted its first of three lectures about steroids Tuesday.

Jasmine Batres started the presentation talking about the biology of steroids.

Testosterone is used in steroids and when the body intakes it, messenger RNA makes copies of that steroid message.

Steroids alter glutamate, which determines excitement, acetycholine, which is for the heart, seratonin, which determines mood, and dopamine, which affects pleasure.

Batres said that steroids "mess with the hypothalemous" which in turn "messes with the whole system."

Males produce 10 milligrams of testosterone a day. Steroid users use 100 milligrams a day or more.

Steroids do not improve agility, skill, or cardiovascular capacity.

Physically, men experience feminization and women experience masculinization.

Other negative effects for both sexes include:

- acne
- bloated appearance
- rapid weight gain
- clotting disorders
- liver damage
- premature heart attacks and strokes
- elevated cholesterol levels

orexia, where a person is never sat-"Steroids are addictive," Batres isfied with his or her muscle size. said. "People experience withdrawal Song pointed out a particular observation where over the years,

Those symptoms include mood the GI Joe toy's muscle size has swings, fatigue, restlessness, and grown with the more common steroid use has become.

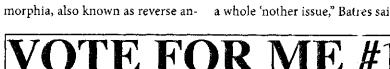

> The presentation was finished with the discussion of controversy over steroid use with athletes.

Athletes need to go that extra mile for fans that buy tickets to see them play.

"If it was legalized, things would be better," Batres said. "We pressure athletes to do it."

A student in the audience Song said steroid users use stebrought up the issue with wrestler roids because "they believe their Chris Benoit and how steroids have an impact on other people.

Men dress up at Mock Rally

TIM DICKERSON News Editor news@talonmarks.com

The stage and walkway were set and pompoms were on every seat. The Student Center was filling up. The Mock Rally on Oct. 18 was about to begin and students were getting excited.

The "mockers" were:

- Irish Della
- Tusi Rigo
- Angel Meza
- Lavaai Tuialii
- Mark Baradi
- Mark Zuniga
- Christoff Sarta

Sarta was the winner. He was handed a bouquet of carrots and radishes.

Sarta said, "I want to thank JJ for getting me up here to do this."

Della, with Adrianna Venegas, was wearing a grass skirt, a lei and flowers made into a hat. He fondled his "breasts" to the crowd.

The disc jockey hosting the event asked him what he likes to do for fun.

Della said, "I like to take long walks through the park [and] stare at the stars with my boyfriend."

The audience responded with laughter.

For Della's dance, he shook his black workout outfit. rear-end for the crowd.

Rigo, supporting Nicole Campos, was next with his brunette wig, orange skirt, and sunglasses.

Rigo's question was what he would change about his appearance.

He said, "I think my [butt]." Rigo said he didn't know what was just going to figure it out.

Meza, supporting Alyssa Huerta, came out in a blonde wig and a red skirt.

The disc jockey asked what his most embarrassing moment as a young lady was.

"A couple guys were checking me out as always. I bent down and my back showed to everybody," Meza said. "It was so embarrassing. I still can't forget it."

He then danced to a song from his "best friend," Britney Spears.

Tuialii, supporting Anna Tapu, wasn't wearing a wig but he was wearing a Hawaiian skirt.

He was asked what is hard about being a woman.

Tuialii said, "Besides having to dye my hair every day, maintenance and keeping up with pedicures."

During Tuialii's dance, women and men came up to the stage to throw dollars at him.

Two came back to get their money back.

Baradi, supporting Sarah Genio-Graves, emphasized his big "breasts" with his outfit.

He was asked who he thinks is the perfect male specimen.

Baradi responded, "Brad Pitt." Baradi shook and spanked his butt during his dance. He then pulled the disc jockey to dance with

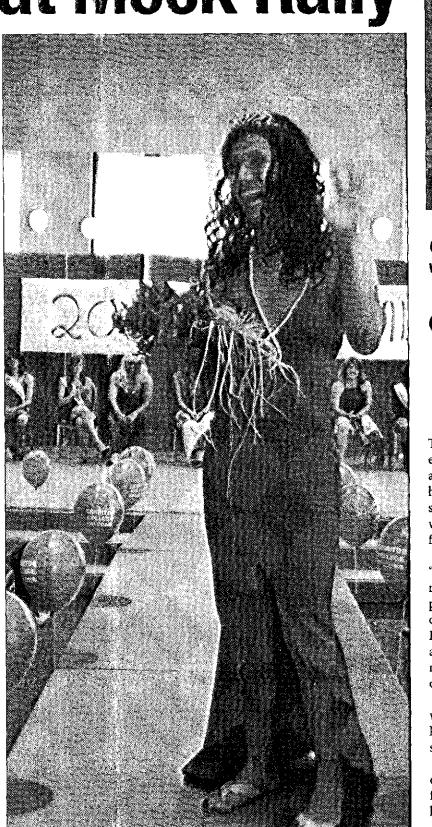

him. Zuniga, supporting Ashley M. Flores, came out in a tight pink and

He said, "If I was a car, I would be a Lamborghini because [Lamborghinis' are] fast, smooth, and nice."

Sarta, supporting Andrea Castillo, came onto the stage in a tight black dress with his "cleavage" showing.

Instead of dancing, Sarta sang. he was going to do for his dance. He He continued singing beyond when the music stopped.

He looked at the disc jockey and said, "Let me get to my chorus! I rehearsed for this!"

Ashaka Mathews/TM Mock Rally: Christoff Sarta wins the Homecoming Mock Rally, receiving a bouquet of carrots and radishes.

San Diego campus closed due to fires

JUSTIN LAFFERTY MIKE MENNINGER Contributers editor@talonmarks.com

(U-WIRE) EVANSTON, Ill. The wildfires that menaced Southern California over the weekend and Monday have also hit close to home for Northwestern University students from the area, many of whom have families directly in the fires' paths.

Authorities have called them "witch fires" -- the Southern California wildfires that killed at least one person Monday and injured dozens others. The fires blazed through San Diego County and led to the evacuation of more than a quarter of a million people and the destruction of almost 130 homes.

"My family had to evacuate, and when I found that out, I knew it was kind of a big deal," said Weinberg sophomore J.P. Lona.

The Carlsbad, CA. native said emergency workers were fighting fires "a five-minute drive" from his house.

He added that he communicated with family members throughout the day Monday. And as for the

safety of his home and possessions, "it's gonna be what it's gonna be," Lona said.

The wildfires have covered about 310 square miles of an area already severely affected by drought.

Although firefighters and police departments enforced a mandatory evacuation, many people have refused to leave their homes in hopes of protecting their possessions.

California Gov. Arnold Schwarzenegger declared a state of emergency in the seven counties ravaged by wildfires. Aside from the damage brought on by the flames, the fires also damaged a major powerline operated by San Diego Gas & Electric, causing about 50,000 people to lose power Monday.

Weinberg freshman Corinne Bernstein is from Irvine, CA., which is located between Los Angeles and San Diego. Although her family has not yet been evacuated, their area has been placed on evacuation watch.

"I'm definitely concerned (about the fires) living in Southern California, but the fire warning's been high all summer," she said. "It's been a very dry season - this is the worst it's been in a long time."

know when to let go of their precious children

From talking with many different people from all kinds of places and cultures, I have come to the conclusion that parents and guardians are too overprotective and controlling these days. Especially for those who still live at

home and go to college or even just work. This seems even more common with the older cultures and values.

The best way to resolve this issue is to communicate better. There is a big lack of communication almost everywhere in our society from family to work and it spreads.

The fact is no matter what the circumstances, an adult is an adult and even if he or she lives under his or her parents' roof, most have the capability to make most of his or her own decisions.

There is a correlation between mothers and sons, and fathers and daughters. Mothers seem to not like when another Giagnoli 4&E Editor rts@talonmarks.com

woman comes into the picture and takes their son's attention and even love. Daughters are always daddy's little girl and fathers are very protective of them as well.

The fact is that it is a cycle of life, boys and girls grow into men and women.

Parents, even if they have a big role in a son's or daughter's life, need to realize when it is that time for them to go out in the world and experience things.

I'm sure that most parents only want the best for their children but sometimes they get caught up in what they want to see and not what the son or daughter wants.

This is where a breakdown in that relationship comes in. There is a point where needs and wants differ for people and parents need to learn this better. What I have seen a lot is parents fightthings and the son or daughter wants others. Sometimes it is a cultural thing and other times they are trying to make up for

mistakes that they made and want a better life for their children. Either way, certain things are inevi-

table and if someone is going to take a wrong road you can't stop them but just hope that whatever happens helps them learn from it and be better for it. Sometimes helping is hurting; if you

make a person too dependant on you or something, when he or she will have to go out on his or her own, he or she won't be able to do much or maybe anything.

There is a time that you have to let go and let things be what they are.

The best thing you can do is teach your children all the good you can and be there for them and finally hope that it will give them the strength and knowledge in life to accomplish many things.

Why are people so superficial when it comes to looks?

The absolute truth does exist Too many people take

Some people say that what is right for you might not be right for them, or that the glass is half empty, but to another it is half full and both interpretations are correct.

Relativity has allowed humans to accept others opinions as valid to the individual that believes the fact.

But has it been taken too far? Some philosophy professors might

say that "There are no absolutes," or "Everything is relative."

Is nothing certain anymore? This logic conflicts with everything I have ever been taught or anyone for that tires.

matter, and everything society stands as a norm regulator and setter. If this is a universally accepted belief,

why is it not applicable to the law? Certainty and absoluteness must come into play and assure every individual of his or her liberties and rights that are demanded as American citizens.

For example, let's say it is right for me to slash someone's tires in my mind, but according to society, it is an inhumane evil that I have performed.

Is it not obvious that the person that has been wronged?

It was absolutely wrong to slash those

What I am trying to say is that there is a definite line between factual information, right, and wrong that cannot be

bent and opinion that can be conformed to satisfy.

Albert Einstein's theory has been taken out of context and proportion.

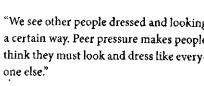

What his theory makes reference to is the difference in appearances, such as size and velocity, from different perspectives. It's gotten to the point that when someone says "Christopher Columbus sailed the ocean blue in 1492," someone else might respond, "That's your opinion, it was purple and we're both right too."

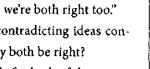

If these two contradicting ideas conflict, how can they both be right?

It is impossible for both of these people to be correct.

Opposites do not agree, that's the definition of opposites.

A clear, distinct line has to be emphasized because there is such a thing as the absolute truth.

try to bring you down as well as

'Chicken Soup for the Soul' isn't life. Board games are a closer match.

DAVIS, Calif. - Where do I turn when I'm feeling lost and disheartened, when I need guidance and direction?

I'll tell you where I don't look: "Chicken Soup for the Soul." Not that I have a problem with sentimentality.

Frank Capra films are a favorite of mine. However, the "Chicken Soup for the Soul" series contains stories so fake and saccharine that they've been known to give lab rats cancer.

I've had firsthand experiences with this feel-good propaganda. I survived harrowing POW-like torture in 11th grade when my P.E. teacher read the stories aloud to inspire the class.

I wouldn't be surprised if I had a brain aneurysm while listening to those pedantic parables.

I wasn't the only one who suffered from adverse effects.

The bad kids in class turned to drugs, taking hits from apple bongs during the mile walk. (It was the lazy cardio class, so we didn't run). Then again, it was public school, so they probably would have gotten

DREAM NATION

high during class even if the teacher didn't force feed the "Chicken Soup" stories down our throats. The point is, the only appropriate time to read a selection aloud from "Chicken Soup for the Soul" is if, and only if, Little Billy accidentally drinks bleach and vomiting needs to be in- in life." duced.

So if you can't turn to a crappy short-story compilation to get you through life, where can you look? Answer: board games.

Scoff, chortle and guffaw if you must, but board games tell it like it is

You should never handle a scalpel (Operation). You will never hold onto Asia (Risk). Gloppy the molasses monster will sink your battleship (the Candyland/Battleship crossover).

Yes, life is hard, your dreams might never be fully realized, but that's okay! You, dear reader, can steer your way through life by following the basics tenets of my board game philosophies:

Jenga. There are no winners, just one big loser." Jenga, to me, is a game of hope: the odds are in your favor.

At the conclusion of Jenga, there are multiple "winners," and they all feel pretty good.

But the guy who knocked the tower over, on the other hand, is the biggest loser in the history of the universe -- a bigger loser than George McGovern, Sanjaya Malakar, and Charlie Brown combined.

Philosophy Two: "If you are woman, the character you play а in Clue (or Cluedo as it's called in Britain) correlates with your station

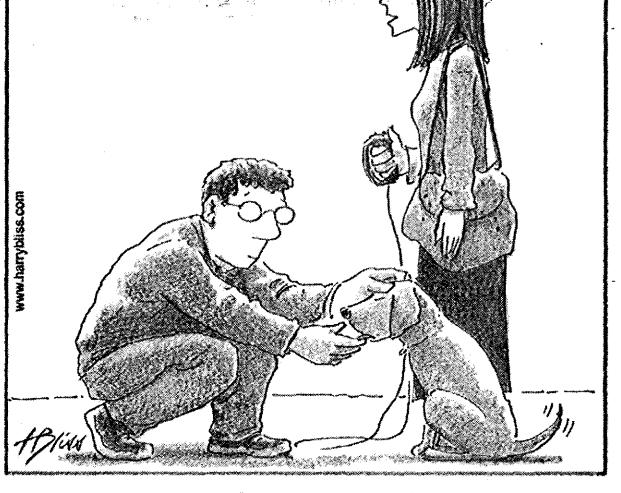

The women of Clue are very different from one another. The cast includes a hot sexpot, a rich old lady and a maid.

Since Miss Scarlet is the most beautiful character, every woman wants to be her.

The remaining woman gets stuck being Mrs. White, the middle-aged maid with bunions who shoots Mr. Boddy because he paid her minimum wage and was a bit too grabby.

And lastly, Philosophy Three: "Life is absolutely nothing like the Game of Life."

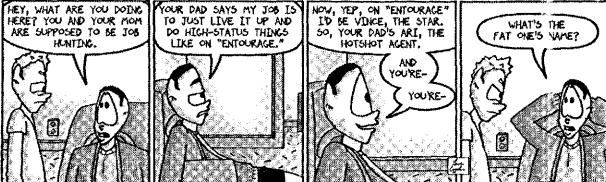

Teachers don't make \$100,000 a year, shacks cost a lot more than \$40,000 (at least in California they Philosophy One: "Life is like do) and I will never, never, never drive a mini-van. I don't care how many blue and pink children I have.

"Actually, it's 'Snoopie,' not 'Snoopy.' "

Dancers prepare for fall concert

JUNIOR CARRICK Staff Writer tcarrick7@talonmarks.com

The Dance Department is going to be hosting a Fall Dance Concert Oct. 25 to 27 at 8 p.m. in the Burnight Theatre.

The dancers said that they have been practicing their routines for the last two and a half months.

Samira Khalof, liberal arts major, is very excited about the concert.

"I love dancing, it gives me happiness," she said. "This concert will give us the opportunity to show audiences what we have been working so hard on."

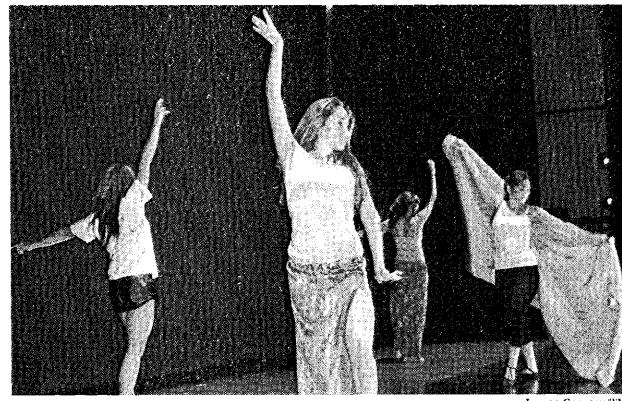

Janet Sanderson will be the director of the concert.

Last Friday, she was instructing students on where to be on stage during their skits.

Dancers where getting familiar with stage props and positioning.

One of the routines that they practiced was called "Seven Days, Seven Weeks." This performance refers to Buddhism.

One of the performers, Margarita Pulido, kinesiology major, said she is a little nervous about the concert, but hopes that the rehearsals will help ease some of the anxiety. She also said that the people

Dance practice: Members of the Dance Department practice for spcoming concerts on Oct. 25 to 27.

who are going to view this concert are going to be in for a treat. As the dancers were practicing,

light designer and stage manager Tyna Kennedy was designing the

lighting for each group. "I think this year, the concert is going to be a strong one, the dancers all seem focused, and dedicated," she said.

The rehearsals were very intense. Students were sweating and doing the same routine over and over again even if they felt the one

before was perfect. Edward Elgankins, dance major, said this concert means a lot to him. He wants to become a professional dancer. He is gaining a lot of experi-

and he is excited and ready. He also states this is going to be one of the greatest concerts of all time.

structors are working together to make a great concert.

For more information, contact ence. He can't wait for the concert

Is Knott's scary?

Jean-Pierre Giagnoli A&E Editor arts@talonmarks.com

Halloween Haunt brings new mazes and days for it 35th Anniversary. Knott's Scary Farm runs 27 days and has five new mazes.

The new mazes are: Beowulf: Labyrinth into Darkness

Pyromaniax

The Doll Factory

Killer Clown Kollege and Black Widows Cavern

The returning mazes are:

Lore of the Vampire

- **Red Beards Revenge**

- Lost Vegas

rage That is 13 mazes that Halloween Haunt has this year, the most they

have had in Haunt history. The movie studio releasing the

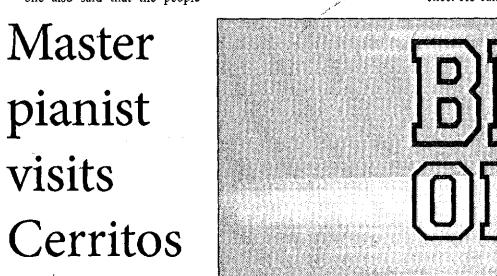

actual film is backing Beowulf: Labyrinth into Darkness.

This maze was set up great with fully dressed-up sets and characters, but seems to depart from Haunt being about scares to just making money off of a movie.

That said, the maze is not very scary at all, cool to go through but just for the looks and the talent is good too and are into it.

Next is Pyromaniax, the concept is kind of weird but it was nice to see them change the theme.

There are more new mazes and a full report on Halloween Haunt and other Halloween events at www. talonmarks.com.

Pianist Dr. Sergey Martinchuk gave a concert for Cerritos College students in BC53 on Oct. 13. Dr. Christine Lopez welcomed everyone and thanked them for attending this event with a big smile and applause from the audience as Martinchuk came into a room full of spectators.

The expressions and body movements made the audience realize how passionate he is every time he touches the piano keys.

Delmi Pimente, teaching major, said, "My mother and I are pleased to be here he is a wonderful planist. (It is a) good thing that I found out about the concert online."

Estela Morales, liberal arts major, said, "I'm currently taking music classes and this concert is going to count as extra credit. But the most amazing part is to see how he feels as he is playing. He looks very passionate."

Martinchuk said that before any concert, he takes a deep breath and he tries to be as calm as possible because he doesn't want to be hyper before getting to the piano.

His mother is the one that got him to play piano. She is not a pianist, but she made sure that he got his hands on the piano.

He began at the age of seven and after three years, he finally decided that it was something he wanted to get better at.

"When playing the piano, I picture a good scene of life because that's what music is, life," he said.

He never just concentrates on the notes but rather on something that he likes.

He said that for those who are undecided and want to try taking lessons on how to play the piano, he recommends giving it a shot and with time and practice, the rewards will come.

Cerritos beats rival Santa Ana, 26-16

SCOTT WATKINS Sports Editor sports@taionmarks.com

A pin by Adam Hase, 174pound weight class, 37 seconds into his match with Santa Ana's Justin Gomez propelled the Falcons to a win in their first conference match against the Santa Ana Dons, 26-16, last Friday.

"I did not think I would have a problem pinning my opponent because my coaching staff really prepared me for the match," Hase said. The Falcons had three pins total

in their match against the Dons. The No. 1 ranked wrestler at 133-pounds, Paul Lyon pinned his opponent from Santa Ana in just

over two minutes. In addition, Al Kinslow pinned Santa Ana's Joseph Garcia in the 197-pound weight class.

The Falcons also had wins from David Razo, 157-pound weight class and Mike Koehnlein, 141weight class.

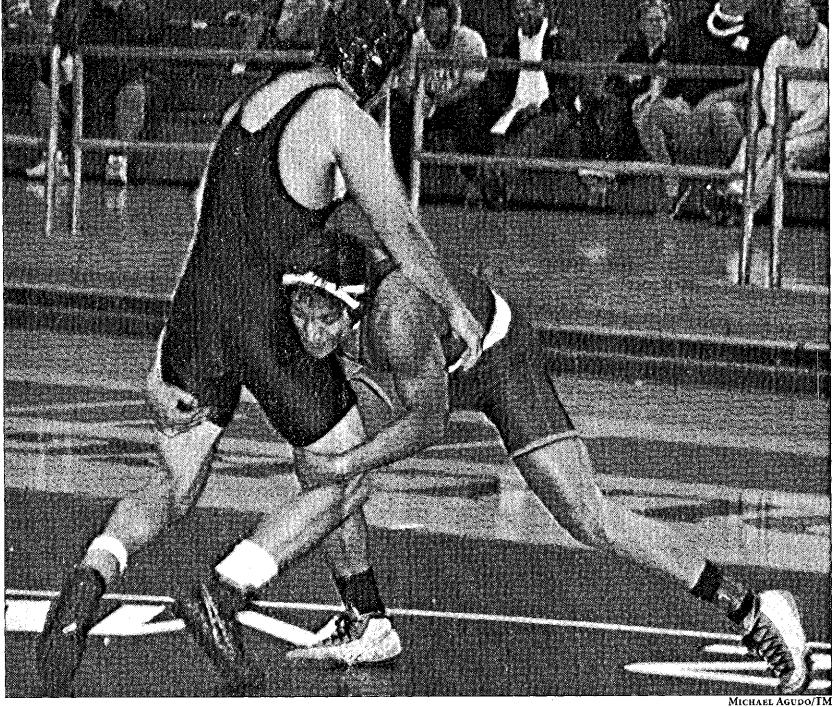

Both won on points, Razo beating Sean Barbour, 157-pound weight class, 9-1, and Koehnlein beat Mike Lopez, 141-pound weight class, 14-6.

"This was the first time all season we had all of our starters in a match and I was really impressed with the way the guys performed," Don Garriott, head coach, said.

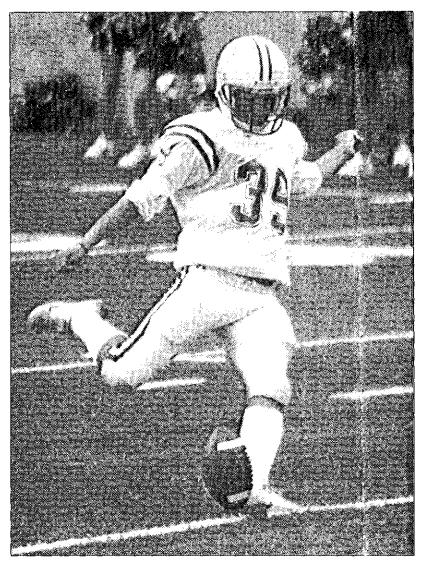

The Falcons lost five individual matches.

Jason Carrillo. 125-pound weight class, lost to Anthony Frank, 125-pound weight class, 2-1.

During Carrillo's match there was a controversial call that when he looked as though he broke the look of the Dons' wrestler and should have received the tying point but it was not given to him by the official.

You're finished: Last Wednesday, David Raso (right), started the winning streak for the Falcons by pinning down Santa Ana's first wrestler.

Third straight loss for Falcons

SCOTT WATKINS Sports Editor sports@talonmarks.com

The defense gave up 407 yards in the football team's 22-16 overtime loss to the Riverside City College Tigers, Saturday night.

On special teams, Falcons kicker Jesus Ochoa missed two field goals, one that was blocked and one that went wide left in the team's final drive.

Ochoa, who is also a starter on the soccer team, said that he lost focus and hooked the kick.

The Falcons gave up 170 yards on the ground and 236 yards through the air to the Tigers.

However, the Falcons defense

"I don't understand what the official saw, but it was clearly a break and Carrillo should have received the point," Garriott said.

Tony Ruiz, 149-pound weight class, lost to Jose Serratos, 149pound weight class, 12-3.

Carsell Swain, 184-pound weight class lost to Steve Sohnki, 184-pound weight class.

And Santa Ana's Tyler Porras, 285-pound weight class, beat Cerrtios' Juan Enriquez, 285-pound weight class, 2-0, in the heavyweight division.

"We showed great energy tonight," Markus Mollica, assistant coach said.

Garriott said that he was surprised about how much the team has improved since the beginning of the season.

He also said that he did not think the men on the team knew how good they really were yet.

LIZETTE CASTRO/TM Football: Place kicker Jesus Ochoa (No. 39) is about to make a field goal.

only allowed six points in the second half; one of those was the game tying field goal to end regulation.

Offensively the Falcons gained 100 yards on the ground and 164 yards through the air for total of 264 yards.

The offensive line gave up four sacks and quarterback A.J. Toscano was running away from the Tigers' defense all game.

"We are young on the offensive line and we are making a lot of mental mistakes," Frank Mazzotta, head coach, said.

In the fourth quarter, the Falcons took their first lead of the game when Ochoa kicked a 25-yard field goal.

The Falcons were able to get into field goal range but the kick by Ochoa went wide-left.

The next drive, with only a few minutes left in the game the Tigers were able to drive the down the field and kick a game tying field goal with no time left in the game. In overtime, the Tigers were able to win the game, Jamaal Scott, running back, ran the ball for 15

yards and the winning score.

Volleyball team loses to El Camino

ARTURO FLORIAN Staff Writer aflorian7@talonmarks.com

The Cerritos College volleyball team found itself playing against one of the more difficult teams in the state on Friday night in the gymnasium.

The final score was a three game sweep by El Camino College in a South Coast Conference match.

The Falcons (3-15 overall, 3-4 SCC) were defeated by the Warriors (17-1, 6-0) in three sets:

- 20-30,
- 16-30,
- and, 15-30.

The next match up for the team will be a road game against Pasadena City College at 6 p.m. on Wednesday.

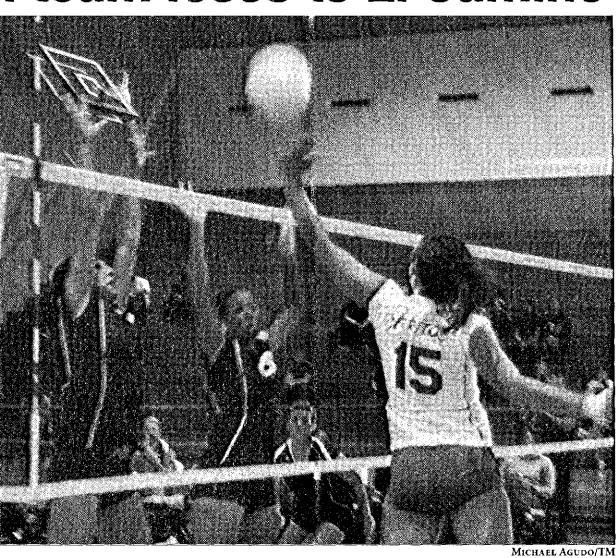

Besides the obvious height difference in the players over Cerritos, the Warriors were effective with their serve and their playing technique overall, that help net up the points in bunches.

Julie Reich, setter, briefly stated that the team's performance was not at the level they wished it would have been.

"We have played better before and I feel as if things were not clicking on today's game as it did when we went on that 3-0 streak."

In the first two games, Cerritos made their move to try to keep up with the Warriors and that's all it seems they could attempt, because the Falcons surrendered multiple points at a time and could not recover from those black eyes.

In the first game, the team received four kills from Julie Reich, setter, whose kills helped stop War-

Heads up: Setter Julie Reich (15), returns the ball to El Camino to try and score for the Falcons.

Warriors.

rior scoring streaks.

Trailing just 8-7 in the first set, the Warriors scored the next eight points before Reich's kill ended that running spree.

Reich collected five more in the second game, but the team also received help from Brittany Hayes, outside hitter, who picked up two of her five kills early on in the second game.

Vanessa Mojica, libero, performed with heart and full heat

despite the deficit in the score and On the night of the game, she handled the hard hitting of the Mojica finished with a team-

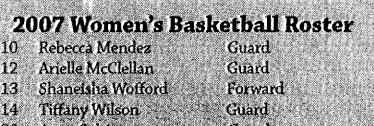

high 15 digs, while Reich and Crystal count. tal Gonzalez, defensive specialist, had seven each, and setter Desiree Cortez dished off 24 assists.

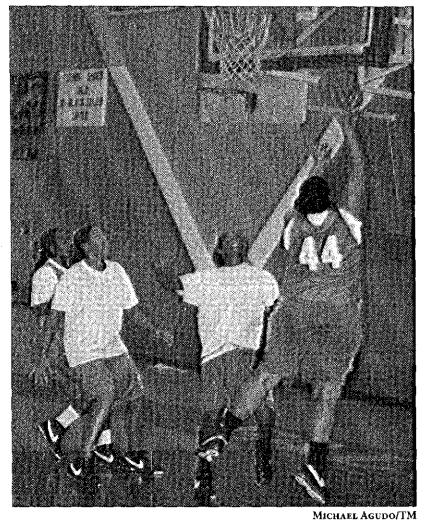

These significant figures were

not enough to claim victory for the Falcons.

Hayes and Reich each finished with nine kills, while sophomore Kristin Mendoza added five more to the to-

The Falcons did not have any success on the floor and failed to record a single block, while they had just one service ace.

Play ball: Center Mele Motulik (44) shoots and scores during practice.

Women's basketball gets ready for season

SCOTT WATKINS Sports Editor sports@talonmarks.com

"This is a great group of young women both on the court and in the classrooms," Karen Welliver, head

coach, said. This year's women's basketball team returns five seniors from a squad that went to the second round of the state playoffs last season including captain Tiffany Wilson, guard/forward.

Wilson believes this team has more chemistry than last year's team did.

Last season, the Falcons finished with an overall record of 18-15 and

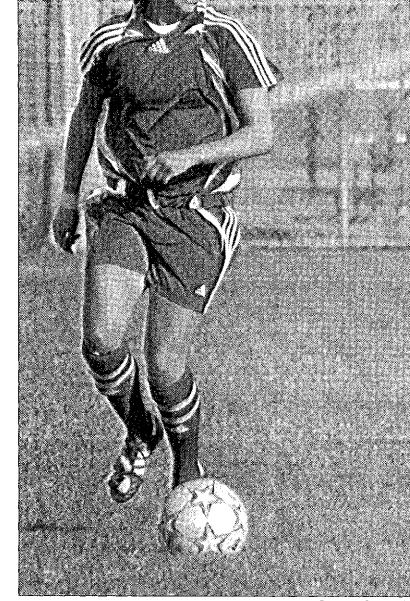

Maltresa Neely, guard/forward, is another returning player and in the 2006 season was first team All-South Coast Conference.

"Everyone is equal on this team and we play with an all out tenacity that we did not have last season." she said.

This season the Falcons will play a more up-tempo style of offense and play both zone and man to man on defense.

Wilson said that she believes that one of the biggest strengths will be that everyone on the team is interchangeable and everyone can all play numerous positions.

The Falcons had their first scrimmage of the season on Oct.

5-3 in conference.

"This season we are smaller but we make up for the lack of height by being quicker and working hard on defense," Annamar Soltis, guard, said.

Solitis was red shirted last season and is still considered a freshman.

She also said that the team studies together twice a week and the women try to take classes together so they can help each other out.

19 and by all accounts, it went very well. "We were able to find out what

we need to work on and played with a lot of intensity," Soltis said.

This year the team believes that it can push further into the playoffs because of its experience from last season.

Neely said that she wants to take on more of a leadership role this season.
